## SKILLS

- **Languages:** Python,C++,Java,C,Nodejs,reactjs,PHP
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** MySQL, Microsoft Excel, Tableau, PowerBI
- **Soft Skills:** Problem-Solving Skills, Team Player, Project Management, Adaptability

## PROJECTS

### Shopping Website

Nov 2024

- Developed a dynamic and responsive shopping website using React.js, featuring seamless navigation, secure checkout, and an optimized user experience.
- Enhanced code to fix errors and improve website functionality

**Tools:** React.js,CSS,JavaScript

### Car Rental Website

August 2024

- Created a full featured car rental website aimed at providing customer with a seamless online booking experience for vehicle rentals.
- Enhanced The website enables user to search,compare and book rental cars based on their preference, location and rental duration.

**Tools:** HTML, CSS, JavaScript

### Infinity Cube Runner - 3D Endless Runner Game

March 2023

- Designed and developed a 3D endless runner game using **Unity** and **C#**. Implemented mechanics like obstacle generation, score tracking, and character controls. Optimized performance for mobile devices and added visual effects for immersive gameplay.
- **Tools:** Unity, C#, 3D Animation, Physics Engine, Particle Systems

### Fruit Bazar Management System - Inventory Management Platform:

March 2023

- Built a web-based system for managing fruit inventory, sales, and supplier details using **PHP**. Created admin and user dashboards, automated billing, and generated sales reports. Utilized relational databases for efficient data handling.
- **Tools:** PHP, MySQL, HTML, CSS, Bootstrap, JavaScript

## CERTIFICATES

### Complete Interview Preparation - Self-Paced(DSA) by GFG

March 2024-July 2024

- Acquired proficiency in data structures (arrays, linked lists, stacks, queues, trees, graphs) and algorithmic techniques (sorting, searching, dynamic programming).
- Enhanced problem-solving skills through hands-on coding challenges, focusing on optimizing time and space Complexities.

### Introduction to large language models( Google cloud)

Oct 2023-Nov 2023

- Covers foundational and practical aspects of LLMs, including how they work, their applications, and how to use them effectively.

### Mastering data Structure and algorithms using C and C++(Udemy)

Jan 2024-Feb 2024

- Offers a comprehensive exploration of data structures and algorithms, emphasizing practical implementation in both C and C++ .

## ACHIEVEMENTS

- Achiever in Debate Competitions.
- Secured 5th place in a Python-based coding competition

Jan 2023

Dec 2022

## EDUCATION

### Lovely Professional University

Bachelor of Technology-Computer Science and Engineering ; CGPA:7.43

Punjab, India

### Oxford Public School

12th; CGPA:8.8

Ranchi, Jharkhand  
2021

### Oxford Public School

10th ; CGPA:8.4

Ranchi , Jharkhand  
2019
